NOTES

- Not every country has the same level depth of regions
    - If the lower levels are not used by EURES Members and Partners to send in JVs, there will not be numbers on the map.
    - If a region does not have numbers, it does not mean the subregion will not.
    - The sum of the regions does not equal the total number of vacancies for a country.
- Click the map before using CTRL+scroll, if you use this combination without clicking, the whole page will zoom in/out.
